

DID YOU KNOW?

- Over half of all repairs are due to lack of regular maintenance
- Neglecting equipment reduces its lifespan by more than 25% and increases utility costs
- Skipping routine maintenance can void your manufacturer's warranty
- Circuit breaker panels should be maintained every year to prevent costly repairs and problems
- You could save thousands by addressing issues before they become major repairs

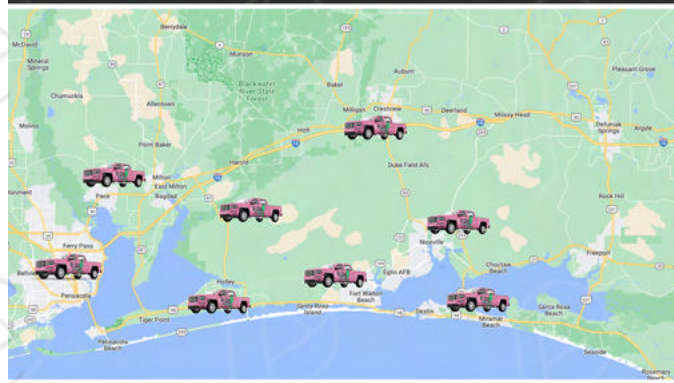

The average American spends **\$500-\$900 a year on coffee.** Protecting your home with **We Care only costs \$239 a year.**
